

# Undress Me Now

## Morcheeba

Using your mind, imagine our skin  
Joined at the hip, joined from within  
By using your eyes, you're freezing my frame  
Watching our clothes burst into flames Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind, using your mind So give me a light, or give me a drink  
Just give me a reason to feel what I think Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
Using your mind, losing my mind Undress me now, you know how  
Using your eyes now  
Undress me now, you know how  
You know how, you know how  
You know how, you know how
