

# What Can I Say

## Carrie Underwood

Piercing words, eyes are red  
Watched your taillights in the rain  
Empty heart filled with regret  
I know we were both to blame  
And i'm not sorry that it's over  
But for the way we let it end  
So I said all I had to say  
In letters that I threw away  
And you should know, please believe me  
I've picked up the phone a thousand times  
And tried to dial your number, but it's been so long  
It's never easy, it's like tryin' to spin the world the other way  
What can I say?  
How did it come to this?  
I think about you all the time  
It's no excuse, but I wish  
That I never made you cry  
I'm not sorry that it's over

But for the way we let it end  
I couldn't find the words to say  
And you should know, please believe me  
I've picked up the phone a thousand times  
And tried to dial your number, but it's been so long  
It's never easy, it's like tryin' to spin the world the other way  
What can I say? What can I say?  
What can I say? What can I say?  
I hate to think all you had of me  
(I said all I had to say)  
Is a memory I left you, place between  
what was meant to be  
(In letters that I threw away)  
And the mess that it turned into  
And you should know, please believe me  
I've picked up the phone a thousand times  
And tried to dial your number, but it's been so long  
It's never easy, it's like tryin' to spin the world the other way  
What can I say? What can I say?  
What can I say?
