Very Loud (Architecture Remix)

Shout Out Louds

I wanna build
Buildings high for you
But of course
I gotta cause I can't afford you
But I always take the wrong way
This is why this love can't stayAnd I wanna change
Change the way we always had
And to make different plans
And try not to make this sad
And I always choose another way
This is why this love can't stayLittle by little
You're gonna hear me cry
Hear me cry
Why?I wanna smell
Smell the way you do
And to wear those clothes
The clothes your friends do
But I always choose another way
This is why this love can't stayLittle by little
You're gonna hear me cry
Hear me cry
Why?
And I know that it started somewhere
And I really like it now
Yes I really like it now
Like it nowI gotta plan
A plan to get us out of here
If we only can use your money
We could definitely get out of here
But I always screw it up some way
This is why this love can't stayLittle by little
You're gonna hear me cry
Hear me cry
Why?
And I know that it started somewhere
And I really like it now
Yes I really like it now
I like it now
And every note that started

Yeah it started from there
And you were very loud
Yeah you were very loud
And I really like that
Like that like that
Yeah you were very loud
