

New Torch

Feist

You are, you are
You are everything in time and space
Forget the face you knew
You are, you are
This was written in the afternoon
The ancient runes of you
Take a trip into the sky with me
Fly with me
You are, you are
You are everything I've always feared

And disappear from view
Take a trip into the sky with me
Fly with me
Be mine through time
This way leads into the garden green
Some nights I've seen you here
Take a trip into the sky with me
Fly with me
