

# And Me

## Beastie Boys

Once again I'm all wrapped up in me  
My best friend's my own worst enemy  
Electricity and gravity Oh my fuck now take a look at me  
My life line's run by AT&T  
Got their wires all up in me  
Is push and pull the way it's got to be? Once again I'm all wrapped up in me  
My best friends my own worst enemy  
Electricity and gravity Once again I'm all wrapped up in me  
Once again I'm all wrapped up in me  
Once again I'm all wrapped up in me  
Once again I'm all wrapped up in me
