

Better Off

Theory of a Deadman

Well ive packed my bags, im moveing on,
Yes ive been way to far to long.

Cause living with you is like a hole in the head,
i know that ill soon be better off,
cause living with you is like a hole in the head,

i know well i know, that i dont care about anyone,
ya know that i am better,
if i done care about anyone,
ya know that am better off.

life explains get off my back,
far to long that ive lost track .

cause living with you is like a hole in the head,
i know that ill soon better off.
cause living with you is like a hole in the head,
i know well i know .

that i dont care about anyone,
ya know that im better off.
if i dont care about anyone ya know that im better off.

this is as good as it gets,
and you know that,
i dont care about anyone,
ya know that im better off, betteroff,
i dont care about anyone ya know that im better off,
i dont care about anyone ya know that im better off, i dont care about anyone ya know that im better off,
i dont care about anyone ya know that im better off,
i i i know thats im better off.
