

Lost Boy

Relient K

You had a baby you were seventeen years old
I was on the road trying to make it my home
You had a man but he wasn't no good to ya
I was with women I didn't know Foot loose, fancy free
Pretty lady won't you dance with me
'Cause one look from your eyes
And I knew that it was right this time Before you came around
I couldn't figure out
Where I was going
I was wandering wandering wandering around
Before I found my way
I was running like a stray And I was a lost boy
Just a lost boy
Before you came around Sweet country baby you were singing at the airport
Raking in tips with the heel of your boot
I must have passed you by a hundred times before
Cupid saw it fit to let me dance with you Foot loose, fancy free
Pretty lady won't you dance with me
'Cause one look from your eyes and
I knew that it was right this time Before you came around
I couldn't figure out
Where I was going
I was wandering wandering wandering around
Before I found my way
I was running like a stray And I was a lost boy
Just a lost boy
Before you came around
I was a lost boy
Just a lost boy Before you came around
I couldn't figure out
Where I was going
I was wandering wandering wandering around
Before I found my way
I was running like a stray And I was a lost boy
Just a lost boy Before you came around
Before you came around
Before you came around
