Slip

Elliot Moss

I won't keep watching you
Dance around in your smoke
And flicker out
You're not the light I used to know

I don't believe in safety nets Strung aloft, make it alright to let go You gotta hold on

Or it's gonna slip, slip, slip though your Slip, slip, slip through your hands

Or it's gonna slip, slip, slip though your Slip, slip, slip through your hands

Or it's gonna slip, slip, slip though your Slip, slip, slip through your hands

What's the matter?
You don't have enough rain
To make up your storm
Ooooh

What you look so sad for? Where's the light I used to know-oh-oh

Or it's gonna slip, slip, slip though your Slip, slip, slip through your hands Whoa-whoa-oh-oh-oh Or it's gonna slip, slip, slip though your Slip, slip, slip through your haaaand

Where's that light I used to know Where's that light I used to know Where's that light I used to know Where's the light I used to knoooow-oh?

Slip Slip slip through your hands

Or it's gonna slip, slip, slip though your Slip, slip, slip through your hands Whoa-whoa-oh-oh-oh
Or it's gonna slip, slip, slip though your
Slip, slip, slip through your hands
Whoa-whoa-oh-oh-oh
Or it's gonna slip, slip, slip though your
Slip, slip, slip through your hands

Oh oh oh-whoaa Wwhoa oh oh oh whoa-oh-oh Whoa whoa oh whoa Oh oh oh whoa oh ooh whoa
