Persecution

Judas Priest

We're watching you
Nowhere to hide
Obey the holy law
Repent for your sins
There is but one GodAgainst their holy laws
I'll do whatever it takes
I've met their kind before
We're martyrs burned at their stakeThey try to dominate
I'll be a thorn in their side
They underestimate
The willpower feeding my prideUnder the hand of persecution
Defy the institutionTheir words just crucify
Condemning truth that I seek
They cannot justify
The pain, the havoc they wreakI never will conform
My faith is deep to the core
I stand against reform
I'll never kneel down beforeUnder the hand of persecution
Defy the institutionRaised fists of fire
As they conspire
I'll be defiant
Against the allianceThey will not eradicate me
Break my will or suffocate me
I will subjugate the hate
That they breedAs the church interrogates
I cannot see they supplicate me
Execute and ridicule
We're all freedI never will conform
My faith is deep to the core
I stand against reform
I'll never kneel down beforeUnder the hand of persecution
Defy the institution
Under the hand of persecution
Defy the institutionPersecute, you defy
Execute, crucify, crucify
Persecute, you defy
Execute, crucify, crucifyPersecute, you defy
Execute, crucify, crucify
Persecute, you defy

You survive
