

Hubba Bubba

Damaged Bug

Oh silver, rushing your (??)
I'm slipping, into my home nowThe lights glow, welcome familiar
It's warm here
Do what you like for nowSome buzzing, like bells in my stereo
I'm hearing
A song of my liking
Just sit there
Smoke over city now
Each light is winking from far awaySo long now
Holding computer
A message of love from the future
The gum that we one shared
Is now
Stuck in the cellphone
Oh silver, rushing your (??)
I'm slipping into my home now
