

# Roll Call

## Lil' Jon ft. Ciara and Lil' Wayne

[chorus:]Niggas on my left niggas on my right  
Does anybody wanna hear some real shit tonight?  
As real as it get holster on my hip  
Is anybody tied of that bubble gum shit?

[Verse:]They say hip hop is dead on life support  
Maybe not there could be something I just thought  
I just ought to jump fighting the sport  
How you expecting to be heard when your mic is off  
I would love to go and browse through the ride report  
But ain't a car in that motherfucker I could afford  
See niggas trying to block the road  
Later then my label dropped the growth they should drop us both  
See I could scream def jam and what they use to be  
But that ain't for me to say that's for you too see  
If I'm not method man... redman... ghostface... young gunz  
Need I say freeway the proof is me  
Still don't beleave me then where's peedi peedi?  
They ain't really give a fuck unless you jizzy  
That's what my mind say just know if you ain't the president or kanye  
You won't see the time of day

[chorus:]Niggas on my left niggas on my right  
Does anybody wanna hear some real shit tonight?  
As real as it get holster on my hip  
Is anybody tied of that bubble gum shit?

[verse:]I'm so thankful that  
Come around these parts we don't crank or snap we aim and clap  
Use to try to take the average rap fan show em shit  
But if they closed minded who am I to open it?  
Rather spend time with a bougie broad  
I mean an actress bad bitch movie star  
Shallow bitches only into jewelry cars  
Still fucks with us though that ain't who we are  
Soon as my wife gone they jump on the python  
They ain't know I'm out to hit and run like saigon  
Puttin back the ice on had it screwed up  
Finally figured out that hate is the new love  
But I don't see how you get ahead that way  
When you team up with envy like red cafe

And all that blame is yours

You trying to get a chain light flaws

I'm trying to get a chain like stars

Find me in jerz line for squeeze work off safety

Can't keep calm around these jerks

They beyond these words

Treat the hood like myspace need to become friends with the tommy first

Don't get found on the back of an empty carton

Spray semi larkins for the brag like remi martin

Don't mind me... last of a dying breed

Wanna take rap and bring it back to the 90's

Q.c inspired me creame made me angry and every dog amped me shook ones hate me

I already know it's a tough state to follow

But niggas use to stay up late to watch appollo

Now it's ridiculous all this shits frivalous

Niggas ain't macho man they miss elizabeth

Break a corona bottle make me an I'll shank

Cut a bitch up like bill blanks doin still rank

[chorus:]Niggas on my left niggas on my right

Does anybody wanna hear some real shit tonight?

As real as it get holster on my hip

Is anybody tied of that bubble gum shit?

[verse:]The media will say anything to get at you

Niggas is transparent I'm looking right past you

Hemi he is a bad dude talking bout' he act rude

Saw my new tattoo it's god with a gavel

Told baby girl if you wanna seduce me

Just know my brain works like I'm bonaducci

My girlfriend say I use my charm to loosly

I tell her I'm too fly to have too con for coochi

Hella paper tell a hater crib got an elevator

On the water front so yeah I outgha front

Still times I feel like carring chrome or cheating the system like I'm merriam jones

Trying to sing for the moment can't find the note

Put the game in a choke hold can't find his throat

Hang with the big dogs can't find the rope

They tell me it's alive but I can't find the post

[chorus:]Niggas on my left niggas on my right

Does anybody wanna hear some real shit tonight?

As real as it get holster on my hip

Is anybody tied of that bubble gum shit?
