Open the Door

Sugababes

Baby show me, I want you to hold me
Never felt this empty before, I can't take it no more
'Cause I noticed we ain't got that closeness
Like the way we had it before, baby open the doorBaby, you ain't got the time, tell me whats on your mind
Even when you're here I'm feeling so alone
You used to work me so hot and now we're months apart
So tell me you can really see what's going onI can't wait, tell me before it gets too late
Tell me that my heart won't break
I don't wanna let it goBaby show me, I want you to hold me
Never felt this empty before, I can't take it no more
'Cause I noticed we ain't got that closeness
Like the way we had it before, baby open the doorLately all the thrill is gone, everything I do is wrong
You keep throwing water on these flames inside
Can't we make our life brand new, baby trust me and you
'Cause I can't go on like this another nightI can't wait, tell me before it gets too late
Tell me that my heart won't break
I don't wanna let it goBaby show me, I want you to hold me
Never felt this empty before, I can't take it no more
'Cause I noticed we ain't got that closeness
Like the way we had it before, baby open the doorI could say I hate you now
But you see through me easily
I can't take the up and down
Take my hand, say you'll turn me aroundBaby show me, I want you to hold me
Never felt this empty before, I can't take it no more
'Cause I noticed we ain't got that closeness
Like the way we had it before, baby open the door
