

# Destination

## Nickel Creek

You don't owe me  
One more minute of your wasted time  
You act like it's all fine But all the years I gave you  
Thinking you knew that you wanted me  
I wanted to believe I've gotta make a destination  
Find where I'll be loved  
This time I've got no hesitation  
And I'll be movin' on  
(To where I belong)  
And I'll be movin' on I'm tired of trying  
To describe what you will never see  
How that we could be Gave up and lost her  
Now you're looking for a little grace  
Well look at my face I've gotta make a destination  
Find where I'll be loved  
There ain't no time for hesitation  
I'll be movin' on  
(To where I belong)  
I'll be movin' on  
(Over the line of dawn)  
I'm already gone (gone) Empty corner gotta keep movin'  
Taking hits while you've been missing  
Night after night after I hear you Say we're solid  
But I know we're looking through the cracks  
In our little patch It isn't hard to leave  
Knowing that I'll be getting life on track  
Never looking back I've gotta make a destination  
Find where I'll be loved  
This time I've got no hesitation  
I'm already gone  
(I'm movin' on)  
Find where I'll be loved  
(Over the line of dawn)  
I'm movin' on  
(Find where I belong)  
I'm already gone
