

Orphan Train

[Phil Cody](#)

Come all you broken hearted
Come and lay your burden down
Come Kings and Queens
Come royalty, surrender up your crown
Come empty handed
Come with nothing of your own to claim
Come naked, poor
Come like a child to ride the orphan train
Come ride, ride on the orphan train
Put your ear to the track
You can hear your name
Come ride, ride on the orphan train
It'll take you all the way home
The way is narrow
It is steep, that brings you to the door
But love awaits
There to embrace your heart forever more
Come ride, ride on the orphan train
Put your ear to the track
You can hear your name
Come ride, ride on the orphan train
It'll take you all the way home
Come you abandoned
You forsaken friendless and alone
Come refugees left homesick for
Some place you've never known
Here Princes, paupers
Criminals and saints are all the same
No more or less
Than God's beloved child aboard this train
Come ride, ride on the orphan train
Put your ear to the track
You can hear your name
Come ride, ride on the orphan train
It'll take you all the way home
Ride, ride on the orphan train
Put your ear to the track
You can hear your name
Come ride, ride on the orphan train

It'll take you all the way home
It'll take you all the way home
It's gonna take you all the way home
