

Kick up Your Heels (feat. Pitbull)

Jessica Mauboy

I met a fella' at the bar
I know he slipped me something strong
Said, "Won't you be my Valentine for
the night?"
I said, "Who you think you're talking to?"
Before this doll gets cute with you
I need to see the way you move
If I'm gonna call you mine Oh, I'm not falling to my knees
You know I'm one of a kind
If you really wanna take a chance
on me
Then dance on me, let's unwind
Just kick up all your heels
The bass drum and the keys
Just won't stop, here's the deal
You're gonna dance with me tonight
Swing from here to there
Let go of all your cares
A ragtime love affair
You're gonna dance with me tonight Kick up your heels and swing with me
Oh, my baby
Kick up your heels and swing with me
You're dance swing with me tonight
Kick up your heels and swing with me
Oh, my baby
Swing it like you mean it
They say that you're the cat's meow
I'm curious what you're about
You're dangerous without a doubt
But it's alright
You may or may not be the one
For now we're only having fun
And you talk like you've already won
But we've still got the night Oh, I'm not falling to my knees
You know I'm one of a kind
If you really wanna take a chance
on me
Then dance on me, let's unwind Just kick up all your heels
The bass drum and the keys

Just won't stop, here's the deal
You're gonna dance with me tonight
Swing from here to there
Let go of all your cares
