

Step Brother City

Someone Still Loves You Boris Yeltsin

Last time I saw you I played it cool
No someone's been nice to you
Is it all you have to do? I know it isn't easy
But surely it's hard enough
And I keep messing
Talking about your love Talking a little bit action
I don't care All the kids' songs and poems are about you
And all the ____
I just get confused
A boy could live in the city where you don't live
The things that I will keep
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
