

# Anticonformity

Krystal Meyers

It's all around, pressure from my so called friends  
It's all around, I'm measured by some stupid trend  
It's all around, everyone is just like them  
It's all around, it's all around, it's all around  
So I'm anticonformity  
I don't try too hard to be  
I'm not what you think you see  
Inside, I've made a change  
And I'll never be the same, no way  
They conform, un-individuality  
And they conform, forget about variety  
Yeah, they conform, they don't know what they believe  
They conform, they conform, they conform  
So I'm anticonformity  
I don't try too hard to be  
I'm not what you think you see  
Inside, I've made a change  
And I'll never be the same, no way

Image is overrated  
If it washes off in the rain  
You know, you gotta go deeper  
To go against the grain  
So I'm anticonformity  
I don't try too hard to be  
I'm not what you think you see  
Inside, I've made a change  
Anticonformity  
I don't try too hard to be  
I'm not what you think you see  
Inside, I've made a change  
And I'll never be the same  
Yeah, I'm anticonformity, anticonformity, anticonformity  
I'll never be the same, no way  
Anticonformity, anticonformity, anticonformity  
Inside, I've made a change  
And I can never be the same
