Take Me

[Disciple](#)

Lying stagnant, lost, but found never gaining enough ground
Salvation from prayer on my knees but I can't take the monotonyWhere else could I go to the one that I know I need to go farther if it's no bother
Take me higher [Repeat: x 3]Step by step, just lead me on the path that I've been on so long
Show me ways that I can grow 'cause I need to be so close
