

# Alcohol

## Dropkick Murphys

Got the time when the sun goes up We'll drink until we drop  
My love for hundred brews That soothes, the foot's  
been dropped Not enough for the men on the walk  
I drive and drink till I drop No doubt about it  
Can't live without it  
No doubt about it I can't live without it, alcohol  
Alcohol Why it's my destiny? You get the beer  
We get the time You get the coke, gimme a line  
No doubt about it Can't live without it No doubt about it  
I can't live without it, alcohol Got the time when the sun goes up  
We'll drink until we drop I drive and drink till I  
drop You get the beer  
We get the time You get the coke, gimme a line  
No doubt about it Can't live without it  
No doubt about it I can't live without it  
Alcohol
