

# The Blues in Black and White

[Randy Travis](#)

The writing is on the wall, baby  
We're different as day and night  
But I guess that I refused to face it  
The blues in black and white When I got home I knew, baby  
Something was wrong tonight  
When I found the note you wrote ,it gave  
The blues in black and white [Chorus]  
Color my world without you in it  
And the future don't look too bright  
Darlin' its not a pretty picture  
The blues in black and white Since you've been gone I'm going crazy  
I've got to get on with my life  
Maybe I'll write a book and call it  
The blues in black and white
