

Toob Amplifier

The Presidents Of The United States Of America

I got myself a brand new tube amplifier

It's large and lovely to behold

La, La, La, La, La

I got myself a new tube amplifier

Now I'm gonna blow a big one

I got myself a little tube amplifier

It's large and lovely and it smells just like a dream

I got myself a tube amplifier

Now I'm gonna blow a big one

I got myself a brand new big bertha driver

Gonna take it to the range (take it to the range)

I got myself a new big bertha driver

Now I'm gonna hit a big one

I got myself a brand new cymbal supplier

They're really good, they're Sabian

They're great, they're Sabian

I got myself a new cymbal supplier

Now I'm gonna crash

Now I'm gonna hit

Now I'm gonna blow a big one
