

Everything Goes

Bob Evans

You live your life, you live like an island
Satisfied, you live for the moment
Here you come, you make it look easy
I bet you smile in your sleep, are you smiling at me?
You live your life, you live like an island
Surrounded by water and silence
Mm, there you go, you make it look easy
I bet you laugh at yourself, are you laughing at me?
'Cause sometimes anything goes
When you're looking at me
And sometimes everything goes
When you're looking at me
So come on, come on, everything goes
When you're looking at me

Come on, come on, everything goes
Sometimes when you're smiling at me
Come on, come on, everything goes, come on
You live your life, you live like an island
What is it like? I wish I could hold it
Mm, there you go, making it look easy
I bet you like how it feels but do you feel me?
So come on, come on, anything goes
Come on, come on, everything goes
Come on, come on, everything goes
'Cause sometimes anything goes
When you're looking at me
And sometimes everything goes
