Diamond Heart (Man Without Country Remix)

Active Child

This isn't what I've imagined
This isn't what I've had in mind
And there it happened
Reached out and cut the lineAnd oh, oh we're on our way
In the night I'll stayI've got a diamond heart that you can't break
No matter how hard you chip away
Save your strength and I'll be fineI hope you know my blood is running
Circles right round your mind
I should have seen it coming
It was worth every second of my timeAnd oh, oh we're on our way
In the night I'll stayI've got a diamond heart that you can't break
No matter how hard you chip away
Save your strength and I'll be fineWhoa, whoa, whoa, whoaI've got a diamond heart that you can't break
No matter how hard you chip away
Save your strength and I'll be fineWhoa, whoa, whoa, whoa
