I wanna learn to live unshattered  
And I heard you're gonna get exactly what you give  
I wanna give it all away, yeah  
Just wanna give it all away I wanna come alive  
But everything is drenched in black and white  
It makes me wanna shout  
C'mon and run with me tonight...Fall into the feeling, I don't know where to start  
We can share all through the night  
Just like a dream in the dark Burning down the street without a hope or a care  
It doesn't matter where we're going  
Just as long as you're there Hey, do you wanna get high? I close my eyes to sleep  
But how the hell am I supposed to sleep?  
C'mon and ride the beat with me, yeah  
C'mon and ride the beat with me We wear it on our sleeve  
And all the waves are washing over me  
Oh I just wanna dance  
C'mon and dance with me tonight...Fall into the feeling, I don't know where to start  
We can share all through the night  
Just like a dream in the dark Burning down the street without a hope or a care  
It doesn't matter where we're going  
Just as long as you're there Hey, do you wanna get high?
