

# Song For Susan

## Crosby, Stills & Nash

If anyone wants to know where to find me  
I'll be right here in the warmth of your arms  
'Cause you, you're the one I can trust in  
You've never done me any harm  
I'm putting all my troubles behind me  
I don't feel the same when I am away from your smile  
'Cause you, you're the one that can calm me down  
Whenever I get wild  
Fooling myself about how to exist  
All by myself there was much I had missed  
You came and showed me what happiness is  
Fooling myself about how to exist  
All by myself there was much I had missed  
You came and showed me what happiness is  
If anyone wants to know where my heart is  
Tell everyone that's it's wrapped around yours  
'Cause you, you're the one I can turn to  
You opened up the door
