

# Resolution

## Beinhaus

Six in the morning, that's the moment I hate  
I stayed up all night and now I'm running late  
    Lay down the bottle, put down the smoke  
Can't find my keys, where the hell's my coat?  
    Look out the window, here comes the rain  
        Oh, my god, I feel the pain  
        Yeah, yeah, my resolution  
    (Is) to make it through another day  
        Yeah, yeah, my resolution  
        Ain't nothing else I want to say  
They towed my car, too many tickets were due  
Oh, when I look in the sky, there's not a touch of blue  
    Not a touch of blue, yeah  
    It don't matter if I'm right or wrong  
    I'm always singing the same old song  
        I need a life I can call my own  
    Come on, come on, throw me a bone  
        Yeah, yeah, my resolution  
    (Is) to make it through another day  
  
        Yeah, yeah, my resolution  
        Ain't nothing else I want to say  
        I want to make it through  
        Ooh, I'm down on my knees  
        Please somebody show me  
        Somebody show me the way  
    Ain't got no luck, ain't got no life  
    Ain't got no woman to please at night  
    Ain't got no future to call my own  
    Somebody, come on, throw me a bone  
        Yeah, yeah, my resolution  
    (Is) to make it through another day  
        Yeah, yeah, my resolution  
        Ain't nothing else I can say  
        Yeah, yeah, my resolution  
    (Is) to make it through another day  
        Yeah, yeah, my resolution  
    There's nothing else I want to say  
        My resolution

My resolution
