

Dot Blue

Reverse Dotty

You called me up last Saturday night, and said there was a party
But when I arrived at your apartment, you were all alone
And you said that this isn't
working
this arrangement that we had
Feels like it's raining in the middle of July But I know that I loved you so
This isn't worth it
the words you said to me
Feels like my heart's been broken in three
Don't you know
That I loved you so
Why'd you have to go
when I loved you so
