

See You

WRLD & Richard Caddock

And I've got all the time it seems
I'd rather see you in my dreams
And every chance to dance I'll take
If I can't see you again
And I've got all the time it seems
I'd rather see you in my dreams
And every chance to dance I'll take
If I can't see you again
We could be listening for answers
Or waiting to be set free
You came across this moment
And I'm so thankful you've shared it with me
Take it from me
We'll live to be free
And take it from me
I want you to see
And I got all the time it seems
I'd rather see you in my dreams
And every chance to dance I'll take
If I can't see you again
We could be listening for answers
Or waiting to be set free
You came across this moment
I'm so thankful you've shared it with me
We could be listening for answers
Or waiting to be set free
You came across this moment
I'm so thankful you've shared it with me
