Woman Friend

Chromeo

Gonna take my time
Gonna make you my woman friend
Gonna make you mine
'Cause I don't want this love to endBut I don't know where I would be
If you're not right here with meAs my woman friend
You're my woman friend
As my woman friend
Baby, you're my woman friendGonna take my time
Gonna make you my woman friend
Gonna make you mine
'Cause I don't want this love to endI don't know where I would be
If you're not right here with meAs my woman friend
You're my woman friend
As my woman friend
Baby, you're my woman friendI don't know where I would be
If you're not right here with meAs my woman friend
You're my woman friend
As my woman friend
Baby, you're my woman friendBaby, you're my woman, woman
Woman, woman friend
You're my woman, woman
Woman, woman friend
