

Contrast

Microtrauma

There's no limitation to what this beat can do
You better get the feeling before the night is through
 Contrast, contrast, contrast, contrast
 There's no limitation to what this beat can do
 You better get the feeling before the night is through
 Break the beat while I'm coming up strong
 There's no limitation to what this beat can do
 You better get the feeling before the night is through
 Contrast, contrast, contrast, contrast
 Break the beat while I'm coming up strong
 Contrast, contrast
 There's no limitation to what this beat can do
 You better get the feeling before the night is through
 Contrast, contrast, contrast, contrast
 Break the beat while I'm coming up strong
