Borrow

Jason Rubero

Well I'm a lover
A real undercover mother
I'm on the inside looking in
I bear the weight

And I say
That I'm in trouble
Double Pure watched me
Trip and stumble
And it's bitter on my way

What else can I borrow, beg or steal?

Time's getting on
And I came up short
When I wanted to belong
Never mind
Another time
And I miss you everyday

I'm here dreaming
Sitting pretty while screaming
Hoping for deliverance
From my crimes against reason
Tell me is there a way?
Tell me is there a way?

Sugar - come you come down?
Sugar - can you shut up?
Sugar - are you in town?
Sugar - are you stuck up?

I'm speechless, I'm dumb
Sitting still, on the run
As much as you allow it
I move forward and then some
Is it OK
That I'm farther away?
I'm farther away?
I'm farther away?

I'm 'Father Away'

What else can I borrow, beg or steal?
What else can I borrow, beg or steal?
