

Dreamer

Dave Love

It's such a lonely world to never hear from you
No words, no text, no invites to come through
I think about what you sound like, the things that we'd do, but we don't, we don't
Cause you're just a thought,
an idea
Just a vision of who should be here
And to change that I'm living alone
I would give you this world if I could find who you are
I would dream all night if I could talk to you
Cause it just don't seem right for me to not know you
I would climb the sky if I could meet you there
But since you're not around, my nights are all nightmares
Cause I'm a dreamer without anyone to love
Inside my head you're the perfect girl for me
It don't gotta be this hard
Just give me a sign on who you might be
Why do you seem so far
Cause you're just a thought, an idea
Just a vision of who should be here
And to change that I'm living alone
I would give you this world if I could find who you are
I would dream all night if I could talk to you
Cause it just don't seem right for me to not know you
I would climb the sky if I could meet you there
But since you're not around, my nights are all nightmares
Cause I'm a dreamer without anyone to love
