Here and Beyond

Behemoth

Arrived we to the days ov our beginning
To the City ov God clothed with the mists
Enslaved by life we danced spinning
In the taverns of time we used to sit
And drunk with memories
Dead moments glorifiedI saw the phantoms ov Golgotha
Legion Legion
Fed on dust ov dead
Anoited by the grey ash
Mad, twisted mob ov JerusalemThen Raphael beyond me and night appear'd
Bent and The Word was announc'dAn archangelic grreting (Jetzirah! Jetzirah!)
The sign ov Portal, reality ov nature
Not to be, but to become
In aimless wandering across the timeOn the sea ov possibilities untouched I stood
From my hand cracked heaven idols are falling to the pieces
Reached the horizon
Dagger in the air
Sylphs work is done
Oracles ov past aeons fulfill'dLive we on the edge ov the worlds
In titanic turn ov time
Here and beyond
Carried on the wings ov the sun
Infinite, sacred power we call
And sight hardly can catch the moment ov eternity
When drink with light
In light we will liveAnd in the formless rapture
Will we sing psalm ov Might
The last spell ov Will:
"We are one
We are none!"
