Eurotrash

Slowcoaster

We are nothing but Eurotrash
We take plastic and we take cashWe are selling an image
Everything must go
I want you to know
You don't want the side effects
You wanna dot com
Need simulated sexWe're selling you heaven
Prices down to a low
I thought you should know
It's all in your head
You're living a lie
There is nothing money can't buyWe are nothing but Eurotrash
We take plastic and we take cash
We sell our hearts, second class
We slit our throats on tinted glassWe're silicon stitches
Reality bites hard
I want you to know
It's all in your head
You're living a lie
There is nothing money can't buyWe are nothing but Eurotrash
We take plastic and we take cash
We sell our hearts, second class
We slit our throats on tinted glassWe are, we are, we are, we areIt's all in your head
You're living a lie
There is nothing money can't buy
The future is here
Dreams have no end
Everything must goWe are nothing but Eurotrash
We take plastic and we take cash
We sell our hearts, second class
We slit our throats on tinted glass
