Painkiller

Edurne

I see the smoke from the gun
Well it looks like I did it again
Put my love on the run
Another one bites the dustHey, hey, it's always gonna end this way, way
I guess I'm never gonna change, change
But that's okay I gotta pick me up when I self destructHe's my fix when I feel like this
He's my killer, painkiller baby
Perfect drug when I screw up love
He's my killer, painkiller baby
So hey what difference does it make
If I make a mistake
I'm addicted to the cure
When I need to be saved
He's my killer, painkiller babyYeah I might seem kinda sick
I look forward to falling apart
And I'm not gonna quit
He's a habit I don't wanna kickHey, hey, I keep pushing love away, way
I can't resist a little taste, taste
But that's okay, I wanna stay hooked cuz
It feels so goodHe's my fix when I feel like this
He's my killer, painkiller baby
Perfect drug when I screw up love
He's my killer, painkiller baby
So hey what difference does it make
If I make a mistake
I'm addicted to the cure
When I need to be saved
He's my killer, painkiller babySometimes I think he's just no good
Should give him up, it's so messed up
Or maybe this is just what they call love
Love loveHe's my fix when I feel like this
He's my killer, painkiller
Perfect drug when I screw up love
He's my killer, painkiller baby
So hey what difference does it make
If I make a mistake
I'm addicted to the cure
When I need to be saved
He's my killer, painkiller!!!(Coro)
