

Sex Drive

Tricky

What you gonna do with your sex drive?
Wait for your soul to catch up with me
Concretely seen
I talk to him
I wanna lie
She looks at me
I wanna hide
Wanna be rich and fat
How do I validate that?
I think every time to fluid
So I cut my mouth
Do I, returnin' into there
Can I rest my head on your chest and dribble? You know the rules I speaks in riddle
Pain is somewhere along the line
Pain is somewhere along the line
It takes courage and strength to be single
When you get older your body won't look so good
This is the peak, the best time for a relationship
I'm the only sheik in Moscow
I said if you're in love let go my hand now
The older I get the more confused I am
The older I get the more bitter I am
Damn it Jesus
They want more more pleasure more regis
Damn it Jesus
They want more more pleasure more regis I sway one way with my head down
I don't wanna get a conflicting mind state
You hold the national wealth
I get the, I get the national health
You told me I was the original guttersnipe
When really I'm the original Israelite
I'll live in a ghetto forever after
So you manufacture the ghetto blaster
But I'm out now, I'm older
Don't carry music on my shoulder
You think I'm a wild terrier
Now I, nobody can afford to live in your area
