

# With the Right Set of Eyes

## Blind Melon

You've been on your own since you learned how to adjust to  
You felt like you had to baby sit your owners just to feel like all the others All you wanted was...  
Something that was normal and stable  
You've always been so aware and so able  
But you still seem so far away  
It's difficult to enjoy all the holidays  
It's nothing more than the same as the other days  
But you can't feel any other way You have to tell yourself why  
Gotta keep your spirit alive  
Gotta keep yourself movin' forward  
You never gave into anything around you  
With something you could never afford All you wanted was  
Something that was normal and stable  
You've always been so aware and so able  
But you still seem so far away  
It's difficult to enjoy all the holidays  
It's nothing more than the same as the other days  
But you can't feel any other way When you wish for this  
You'll ditch everything else  
It just floats away and crawls out your skull  
All you wanna do is crawl inside your hole  
Disappear forever Something that's normal and stable  
You've always been so aware and so able  
But you still seem so far away  
It's difficult to enjoy all the holidays  
It's nothing more than the same as the other days  
But you can't feel any other way Forever  
Forever  
Forever  
Forever
