

# Straight Into The Fire (Feat. Julia Michaels)

Zedd

Take your dark days and send them to the sun  
And carry on, carry on  
To every lover who ever did you wrong  
Move along, move along  
To every dream that drowned this dream and made you small inside  
Take your dark days and send them to the sun and carry onLet it go 'til you let go of all the anger  
And all the words that made you hurt will burn like paper  
Straight into the fire, straight into the fire  
And let it go until the smoke is gone foreverCrack the windows and take the shutters down  
And carry on, carry on  
Take just one seed and put it in the ground  
And move along, move along  
'Cause it's easy to hold on, but so hard to forgive  
So take the dark days and send them to the sun and carry onLet it go 'til you let go of all the anger  
And all the words that made you hurt will burn like paper  
Straight into the fire, straight into the fire  
And let it go until the smoke is gone foreverStraight into the fire  
Straight into the fire  
Straight into the fireI will not rest until I see  
The other side  
I will not rest until I learn  
To say goodbye
