You

Special D.

I used to feel blue
My hopes became true
How long have I searched for someone like youNo minute goes by
Just an ocean of you
I still get down
And that's really trueI used to feel blue
My hopes became true
How long have I searched for someone like youNo minute goes by
Just an ocean of you
I still get down
And that's really trueI used to feel blue
My hopes became true
How long have I searched for you
For someone like youYeah
How long have I searched for someone like you
How long have I searched for you
For someone like youI used to feel blue
My hopes became true
How long have I searched for someone like youNo minute goes by
Just an ocean of you
I still get down
And that's really trueI used to feel blue
My hopes became true
How long have I searched for someone like youNo minute goes by
Just an ocean of you
I still get down
And that's really trueYeah
How long have I searched for you
For someone like you
You
