

# For My Love

## White Sea

I try to tell myself that all will be forgotten  
I can barely smoke a cigarette  
You're the one I need, the only man I wanted  
But it's always the endBut you just want that pussy  
You know that you can have me  
You just want to love me  
Baby baby baby you got meOK I lied, I don't know how to love  
I think you know I fall too easy  
I needed you, but I needed many  
Now I'm just deadBut you just want that pussy  
You know that you can have me  
You just want to love me  
Baby baby baby you got meAnd you, baby you got me  
And you, baby you got me  
You, baby you got me  
You, you just wantAnd you just want that pussy  
You know that you can have me  
You just want to love me  
Baby baby baby you got meBut you just want that pussy  
You know that you can have me  
And you just want to love me  
Baby baby baby you got me
