The Great Society

Elf Power

Once a worldly man
Made his way across the earth
He saw a Chinese season, emerald trees
And the worms laughing in the dirtHe would never rise the planets
And the stars above
And dream a secret dream
About the ones he lovedOnce a slippery man
Made his way across the sea
He saw tiny fish and made a wish
And changed into you and meThey would float upon their backs
To watch the stars above
And dream a secret dream
About the ones they love
