Chips Ahoy

The Hold Steady

She put 900 dollars on the fifth horse in the sixth race
I think his name was Chips Ahoy!Came in six lengths ahead
We spent the whole next week getting high
At first I thought that she hit
On some tip that she got from some other boy
We were overjoyedI got a girl and she don't have to work
She can tell which horse is gonna finish in first
Some nights the painkillers make
The pain even worseCame in six lengths ahead
We spent the whole next week getting high

I love this girl but

I can't tell when she's having a good timeHow am I supposed to know that you're high

If you won't let me touch you?

How am I supposed to know that you're high

If you won't even dance? How am I supposed to know that you're high

If you won't let me touch you?

How am I supposed to know that you're high

If you won't even dance? She's hard on the heart and she's soft to the touchAnd she gets migraine headaches

when she does it too much

And she always does it too much How am I supposed to know that you're high

If you won't let me touch you?

How am I supposed to know that you're high

If you won't even dance? How am I supposed to know that you're high

If you won't let me touch you?

How am I supposed to know that you're high

If you won't even dance?

And you won't even dance
