

One Step Closer

Tessanne Chin

One step closer to the edge
I can feel it chasing on the tip of my tongue
Got you in my system, babe
I'm ready to take aim and fire(Pre-Chorus)
It's heading straight into your direction
It will take you down
I'm not in need of your protection
Cause I'm wiser now(Verse)
I step forward cause my roots grown deep, yeah
The more I rise is the further that you reach me
And I ain't looking to the left or the right cause
Unless you haven't noticed, I was born to rock the mic(Chorus)
One step closer, never thought I'd get so far
But I'm standing on the stage and the lights are in my way
Better ring de alarm
One step closer, I'm winning cause I went so hard
And the music keeps on play
And the people dem ah say we ah mash up de dance(Verse)
Every dream conquered is another dream gained
I land then I fly again, baggage in the plane
Now I'm flying high and I've got nothing to fear
Victory is knowing that you're already there(Pre-Chorus)
It's heading straight into your direction
It will take you down
I'm not in need of your protection
Cause I'm wiser(Chorus)
One step closer, never thought I'd get so far
But I'm standing on the stage and the lights are in my way
Better ring de alarm
One step closer, I'm winning cause I went so hard
And the music keeps on play
And the people dem ah say we ah mash up de dance(Bridge)
Oh, what a feelin', don't stopd reamin'
Keep on believing the power of the feeling
I'll tell you the one, take a chance
Telling yo heart, swept in ya dance
You got a spot, go for the dot, shine yo lights on(Chorus)
One step closer, never thought I'd get so far
But I'm standing on the stage and the lights are in my way

Better ring de alarm
One step closer, I'm winning cause I went so hard
And the music keeps on play
And the people dem ah say we ah mash up de dance(Verse 1)
One step closer to the edge
I can feel it chasing on the tip of my tongue
Got you in my system babe
I'm ready to take aim and fire
