

Tehani Girl

Kiani

I never got the chance to hear you cry
Never got the chance to hold you tight
How I wish you were here with me
I think about you constantly
I watch the sun rise and watch it fall
Days are passing and still your gone
Its almost been a year
Baby girl I want you here

Why did you have to leave me
Why couldn't you stay
Things would be so much better if I got to see your face everyday
How am I getting by
The pain I feel the tears I cry
Tehani girl mommy misses you
I'm sending butterfly kisses to you

Everyday that passes by
I'm hopelessly wondering why o why
I only had 8 months with
I miss your kicks and hiccups too
Although your gone I know your near
The memories we'll hold dear
Your the inspiration to my life
Someday we'll see each other on that side
But

Why did you have to leave me
Why couldn't you stay
Things would be so much better if I got to see your face everyday
How am I getting by
The pain I feel the tears I cry
Tehani girl mommy misses you
I'm sending butterfly kisses to you

Every night while your asleep
I pray the Lord your soul to keep
I know that he's right there with you
Just wish he didn't take you so soon
Through it all I'll be alright

I'm working hard to shine my light
Representing you in all I do
I hope you really know I miss you too

Why did you have to leave me
Why couldn't you stay
Things would be so much better if I got to see your face everyday
How am I getting by
The pain I feel the tears I cry
Tehani girl mommy misses you
I'm sending butterfly kisses to you

Why did you have to leave me
Why couldn't you stay
Things would be so much better if I got to see your face everyday
How am I getting by
The pain I feel the tears I cry
Tehani girl mommy misses you
I'm sending butterfly kisses to you

Why did you have to leave me
Why couldn't you stay
Things would be so much better if I got to see your face everyday
How am I getting by
The pain I feel the tears I cry
Tehani girl mommy misses you
I'm sending butterfly kisses to you
