So Good

Stick Figure

Sometimes we got to keep on moving
Pushing through with life will carry on
Like the wind we got to keep on blowing
I don't know if these feelings will ever change

It feels so good
Make me feel so good,
It feels so good

We went out for so long together
We're not together but we love each other anyway
Some people will search forever
Maybe never find a person like you

It feels so good
Make me feel so good,
It can feel so good

Just because we cannot be together
Lets promise never to lose what we got going on
Some will say that love will last forever
Who knows whether we'll see each other again.

It hurts so much
Hurts so much
Hurts so much
It hurts so much
Hurts so much
Love you do damn much
