

Stormtrooper (feat. Josh Fischel)

Pepper

You think that we can't see your face
I think you need to give us our space
You know that we can raze this place
And leave you without a trace Storm trooper, storm trooper
Why are you here?
The youth them getting restless
And they don't want you near Your watching us, your watching us
It's so improper
We've seen your kind
Before we call it informer Storm trooper, storm trooper
Where will you go?
This world she no like you
So you better stay low And up from the mountains
And out from the trees
That is where you come from
You crawl like the one disease So now you pass me the laser beam
And you want me to join the team
Well, I'm not used to these kinds of things
But this is what the evil brings Let me tell you 'bout the fire
You could bring the waters up above
I'll bring my favorite people
And I'm bringing all my love You want a battle
Well, don't look very far
You want to fight somebody
Come fight the superstar I knew you wouldn't stand a chance
You left without a passing glance
There's nothing you could ever do
To keep me from stopping you It's so dark and lonely out here in outer space
But at least I got my keyboard
And my low bot has his bass
Playing street sweeper tunes
While watching the fighters fly by Things would be better
If I was back at home
With pepper burning pakalolo
Not even noticing the weather
So far and so alone a million light years away Storm trooper, storm trooper
Back up from my door
I got my blaster set
I'm ready to start a minor war This won't be the day

You were hoping for
So just walk away, walk away
Better run now you are done now 'Cause your standing
In a bad mans town, boy
Time to get back to my daily routine
Have a beer in the bar on Tatooine You take away everything
Make my people scream out loud
Just bring it back
Lord, just bring it back You mess it up and you rearrange
Open your eyes and turn the page
Just bring it back You take away everything
Make my people scream out loud
Just bring it back
Lord, just bring it back You mess it up and you rearrange
Open your eyes and turn the page
Just bring it back You take away everything
(I believe I'll interject)
Make my people scream out loud
(To talk about the word respect) You mess it up and you rearrange
(It's not a word that's in your hands)
Open your eyes and turn the page
(It's more about the common man) You take away everything
(You took your time and paved the way)
Make my people scream out loud
(Making room for other man to play) You mess it up and you rearrange
(A grip of bodies a mess of minds)
Open your eyes and turn the page
(Endless conversations to rock) You take away everything
(Na na na na)
Make my people scream out loud
(Na na na na) You mess it up and you rearrange
(Na na na na)
Open your eyes and turn the page
(Na na na na) You take away everything
(Na na na na)
Make my people scream out loud
(Na na na na) You mess it up and you rearrange
(I believe I'll interject)
Open your eyes and turn the page
(To talk about the word respect)
