I'll Try Something New

The Miracles

I will build you a castle with a tower so high
'Til it reaches the moon
I'll gather melodies from birdies that fly
(Fly, fly)
And compose you a tuneGive you lovin' as warm as mama's oven
And if that don't do, then I'll try something new
(I'll try something new)Oh, I will take you away with me
As far as I can to Venus or Mars
(Venus or Mars)
There, we will love with your hand in my hand
You'll be king of the starsEvery day, we can play on the Milky Way
And if that don't do, I'll have to try something new
(I'll try something new, something new)I will bring you a flower from the floor of the sea
To wear in your hair
Thank you, I'll do anything and every little thing
To make you happy boy, to show you that I careI'll pretend I'm jealous of all the fellas
And if that don't do then I'll try something newI'll try something new
I'll try something new
I'll try something new
I'll try something new
I'll try something new
