Solarized

Ian Brown

Her heart gets broken, it's something she can't hide
She's cut like a diamond from a mine as deep as time
The words that she's spoken have energised my mind
A sheer elevation so like eagles high, we'll glideHot love it smoulders, it's something she can't hide
A manifestation of a force as old as time
Now morning has broken and solarized my eyes
Her sheer dispensation says like eagles high, we'll glideSolarized in the sunrise, soul rise in the sunrise
Rise with the sunrise, solarized in the sunrise
Soul rise in the sunrise, rise with the sunrise
The light that she lives for in the dark, she'll always find
