# All We Have

## Squad Five-O

The years still grinning back at you
In the neon lights and the spent cash you
Get some and then it's gone
Easy times, hard times all pile onGood times through it all
A picture of our crew on a wall
I see you slipping and you think it's me
There's something preying on us that we just can't seeAnd we might be all we have someday
(All we have someday)
So, so never wanna you look that way
And if you really care why don't you act that way'Cuz snakes make and venom friends they fall away
(They fall away)
And they don't come back one day
When the poison's too strong to let them say
Please forgive me, you're my friend always, always, yeah, alwaysLook into my eyes, you know me
Don't believe some lies and disown me
We've been through the sweat and weather
Broken down and broke togetherTellin' jokes in parking lots
Fighting over who's gonna call the shots
Mixing up our blood and spit
Turned into soul and fire spirit, ohhAnd we might be all we have someday
(All we have someday)
We gotta, so never wanna you look that way
And if you really care why don't you act that way, telling'Cuz snakes make and venom friends they fall away
(They fall away)
And they don't come back one day
When the poison's too strong to let them say
Please forgive me, you're my friend alwaysWe're here in color
The world's so blue, the ocean and the sky
And I wanna die when it's darker
Overwhelmed, I close my eyesBut arms reach out
It's my last hope and when they do
And I try to grab a hold
Where are you, ohh, where are you? Ohh, yeahAnd we might be all we have someday
(All we have someday)
We gotta, so never wanna you go that way
And if you really care why don't you act that way'Cuz snakes make and venom friends they fall away
(They fall away)
And they don't come back one day
When the poison's too strong to let them say

Please forgive me, you're my friend always
