Spacemen

The Beloved

Remember when the water froze
And the sky was still
And you looked out of your window on the world
And then you went against your willIf you could see that far
See back from where you are
Then you will always be
Somewhere inside of me
You're not aloneAnd then you held me in your arms
And you told me not to cry or be afraid
I felt protected by your calmIf you could see that far
See back from where you are
Then you will always be
Somewhere inside of me
You're not aloneFrom the silence of my heart
There's a picture in my head
An image frozen of you traveling through time
From long ago to far aheadIf you could see that far
See back from where you are
Then you will always be
Somewhere inside of me
You're not aloneIf there's a sadness in your eyes
If there's a place where
You would rather be alone
To recreate or recognizeIf you could see that far
See back from where you are
Then you will always be
Somewhere inside of me
You're not aloneOh, as a man you stand alone
(Oh, as a man)
All the contentment that you once felt as a child
Has long escaped you, now you've grown
(As a man)But I believe in love
Believe it's strong enough
To take on everything
That every life could bring
You're not aloneYou're not alone
You're not alone
You're not alone
